

Social Distancing Protocols

To keep both our staff and clients safe while still providing necessary services, we are implementing the following procedures:

[For your appointment:](#) Please do not enter our building. Call us from your car (908) 439-2470 and a staff member will come outside to get a brief history, your cell phone number, and will bring your pet into the hospital. The doctor will speak with you via phone during the appointment. In most circumstances, you'll remain in your car. There may be certain situations where exceptions will need to be made, in which case we will accommodate you and your pet in a large room where social distancing will be possible.

[For prescription pick-up:](#) Please order and pay for the prescription over the phone. Let us know when you'll arrive, we will put your products in a pick-up area outside our front door.
